The Party Line

The recent report of the House Expenditures Committee which states that six Federal agencies have been guilty of illegal propaganda activities in behalf of compulsory health insurance may prove to be a document of the highest national importance. The report was unanimously approved by all members of the Committee, and the Justice Department has been requested to proceed against the agencies accused.

The agencies named include the U. S. Public Health Service, the Agriculture Department, and the Bureau of Research and Statistics of the Social Security Board. The last, the report says, was responsible for most of the propaganda material. So-called "health workshops" were held in two mid-western cities, "largely financed with Federal funds, by a key group on the government payroll who used the workshop method of discussion to subtly generate public sentiment in behalf of . . . socialized medicine." In conclusion, the report further stated that "known communists and fellow travelers within the Federal agencies are at work diligently with Federal funds in furtherance of the Moscow party line in this regard."

So grave a charge as this must be given the most thorough investigation. There can be no possible excuse for using the taxpayers' money and tax-supported governmental agencies for propaganda either for or against any proposed law. The offense is made worse by the fact that socialized medicine is alien to every American principle of government, and is clearly a communist concept. "Boring from within" tactics of the kind charged are the most effective weapon used by those who wish to establish totalitarian government here.

Dr. Walter Keys
To Speak Here

Since the Everglades Presby- at the Belle Glade Hospital, about a year ago, has brought some outstanding speakers to the community at various times (including Dr. Keys) and the church has had a phenomenal growth. This is evidenced by the fact that, although the Church is not actually a year old, the manse is nearing completion and plans are underway for further expansion. On next Sunday evening, February 29, this group brings to the community another outstanding speaker and preacher Dr. Walter Keys. Dr. Keys is at the present time visiting in Florida, and will fill the pulpit at the Everglades Presbyterian Church next Sunday at 8:30 P. M. in the city of the Blowing Rock Presbyterian Church, Blowing Rock, North Carolina and for a number of years has been active in the field of Home Missions of the Presbyterian Church. He is a graduate of Union Theological Seminary, Richmond, Virginia and is well known in Presbyterian circles. The subject of his sermon Sunday evening will be "Like A Tree" and the pulpit is cordially invited to attend. Service will be held in the Green's Field Building.

C of C Election Tuesday Night

The annual meeting of members and Directors of the Belle Glade Chamber of Commerce will be held Tuesday evening, 8 P. M. in the City Hall. The names of the four newly elected directors will be announced at that time and a President and Vice-President will be elected by the Board at this meeting. The retiring President, James Harris, will also give a report on Chamber activities for the past year.

The entire membership is urged to attend. Invitations are asked to give their ballots in the mail before February 28 as this is the deadline for casting votes for directors.

The Merchants' Division of the Chamber will meet Thursday night at 9 P. M. in the City Hall. Chairman Lou Betzner urges all merchants to attend this important session, at which

From where I sit ... by Joe Marsh
Where Does Your Money Go?
Read the other day where country folks and farmers spend more money, proportionately, on their homes than city dwellers do.
Doesn't seem hard to believe when you think it over. Take the home life to me - like rider and popcorn for the kids from time to time, and a friendly glass of beer for Mom and Dad - ah, ah, ah, that's better - what we mean when we say "home".
And from where I sit, that budget calls for one of the nicest home life to me - like rider and popcorn for the kids from time to time, and a friendly glass of beer for Mom and Dad - ah, ah, ah, that's better - what we mean when we say "home".

Then there is Glen Porter's "Look at Life," with ten big acts under one huge tented theatre: Death Valley; Hot Spot Revue; Atomic Age; Animal Circus; Life Exposition; Girl in the Iron Lung and others.

There is big circus acts will be given free at each performance. These acts include Daredevil Freddie Reckless performing on a 110 foot high swinging pole; Capt. Engerer and his performing lions; and The Sensational Parroffs on the swinging ladders. A gigantic Fireworks display will also be offered each night.

March Of Dimes Collection A Bit Under Area Quota

Ray Whitlock, chairman of the March of Dimes drive is very much pleased, conditions being considered, with the response that came to the appeal from the South Lake District. The total sum of \$14,050.00 is a bit under the desired quota, which was \$15,000. Schools played a prominent part with their collections, civic clubs responded well, and there was a number of sizeable private checks turned over to the chairman.

The final breakdown of collections is reported as follows: Belle Glade, white school, \$406.31; colored elementary school \$77.00; Belle Glade theaters, White \$237.51; colored, \$17.19; Elks club, \$156.03; Okeechobee Camp, \$20.00; South Bay School, \$17.52; Lake Harbor School, \$14.94, balance in donations.

City Library Receives Many New Editions

The City Library has been presented with 31 new books by Halsey and Griffiths, Inc., of West Palm Beach, and they have been added to the shelves. Mrs. Etta Browne, librarian, reports that other new books recently added are: non-fiction "Everglades River of Grass" by Marjorie Sweeney Douglas; "Livingstone's Last Journey" by Roberts; and several new children's and junior's books, and new westerns and mysteries "Lake Okeechobee" by the Dr. Hanna has been ordered.

Lions To Discuss School Question In Debate Form

The program at the Lion's club, next Wednesday noon, is to be most important one, as it will involve a question for Belle Glade. The program will be in the form of a debate, and round table discussion and the taking of club action on the subject. This will relate to the question of a consolidation of the Pahokee and Belle Glade High Schools, and the creation

of a proposed new high school at some mid-city location. Announcement is made that the second of these events will be held at the State Market at Borton, on next Labor Day, September 6th, with the affirmative and Henry O. Daywood for the negative of the question. Should the resolution as prepared by Pahokee, not be favored by the Belle Glade club, it is understood that the former will not press the change, which would be adverse to the School survey recommendation, Judge Richardson and Robins, county judge for 25 years, gave an interesting address on "Juvenile Delinquencies".

Red Harlan Enjoys Visit With Former Local Parishioners

Frank Franz, former pioneer business man of this city now residing in Orlando, spent several days here the past week looking after business matters. Mr. Franz says he is always delighted to visit the old home town, where he enjoys the democratic spirit which exists in the community.

Mr. E. Franz was accompanied by Rev. Harlan, who some years ago served the local Seventh Day Adventist church as its pastor. He is now engaged in field work for the church. Rev. Harlan states that he can hardly conceive the manner in which the city has grown and advanced since he was here. He was much pleased to meet up again with many of his former parishioners.

Successful Returns From Poppy Sales

There will be a noticeable falling off of shipments the next two weeks. Late celery is reported as coming along very good and harvests will be heavy.

The special and invitational meeting sponsored by the Florida Glades Branch of the National Wholesale League of Vegetable and Fresh Fruit Distributors, which was held at the meeting of March end, followed by lunch and a social hour.

A delegation of members attended a District School of Instruction Monday night, February 23rd, at the hall of Gardenia lodge in West Palm Beach. Lodges of the West coast are extending a reception to the State President at Arcadia on March 8th, and a delegation of local Belles is planning on attending.

One of those inviting pathos of the evening was the one of the close of the lodge.

Jack Harding No. 1 To Coach Hurricanes Coming Season

Jack Harding, who for the past ten years has been Athletic Director and football coach at Miami University, and who has led the Hurricanes, has resigned the coach job and will be coaching the Hurricanes to the director's work. Harding has had all kind of football teams during his regime.

The last of the one was the one which defeated Holy Cross in 1945.

At the time of the immediate action, is due to the fact, that Hollywood is making strenuous efforts to get the unit for its work, where the Riverside Military Academy, and others, has been placed on the list of drill hall, and certain military support.

This particular unit of the Guard is the largest of the full complement of 188 men and 6 consimulated officers, and will aggregate at least \$50,000 a year, along with certain yearly salaries, and will be in the military and vocational lines. Col. Hartwell states that the unit must be formed and ready for muster by March 31st.

Of the \$50,000 \$1200 to be collected, one-half must be in hand by the end of this present year, which is to meet the labor of those who must work on the home town structure, which will house them during the week, and certain supplies. The Advisory Committee members have been busy the week endeavoring to secure the necessary funds, in order that Belle Glade secure the unit, and the generous liberality of citizens alone will determine that action.

An action of the information as to sanitary affairs in the city, was presented by Harold B. Riley, of the engineering firm of Russell & Axin, who stated that the plans and specifications had been prepared, approved by the State Board of Health, and were awaiting Federal approval, and the adoption of a bond issue of \$50,000 for construction. When all this was provided then Belle Glade would be free of much of its present sanitary troubles.

There have been interesting programs presented to the citizens of Belle Glade, and more entertaining and educational value, than the one presented by program chairman of the city, February 19th, by "Jack" Hollingsworth.

Ralph Kidder, chairman of the Scout Advancement committee, gave a brief review of the Scouting program, and then introduced Scoutmaster, Pope and Leffis, who acting as Review Commissioners, conducted an examination of a class of selected candidates seeking merit badge awards. These candidates were: Lions Commissioned, Kirk, Alland, Johnson, and Hollingsworth, and were they on the spot. They proved themselves the dumbest applicants that ever attempted to pass a merit examination, and their predicament brought out howl of joy from the balance of the audience.

Fill The Fleet Program

In accordance with the Navy Department's program, "Fill The Fleet," the Navy recruiting office, West Palm Beach, announces the opportunities to earn a trade in the Navy, better now than ever before. High School graduates may select from the Navy's choice before they enter the service, men who have not completed their High School education have the privilege of getting a diploma through the United States Armed Forces Institute.

Also in the latter category may select such schools as electrical, hospital, hospital corpsman and others, and are being successfully passing the Navy's physical and IQ requirements.

Sandcut Camp Reconditioned To Open March 6th

The Pahokee Housing Authority, to whom the Government gave the three migratory camps at Pahokee and Sandcut, has had Sandcut all cleaned up repairs made on houses, and placed same in condition for use for colored people who will be used as laborers in the spring cropping season. The camp was under deep flood waters for several months. The ramp will be officially opened on March 6th. The Authority has employed J. W. Vann as Secretary-Treasurer and Executive Director of these camps.

News Pickups Around Our Fair City

William Horn, for many years connected with the Scarborough Department Store as a salesman, has leased the south half of the late station room at South Bay and will there store a dry goods, notion and sundry store.

The Gold-Dobson Truck syndicate has been making a complete renovation of the Evansdale Hotel. The new hotel will be used for an auxiliary show house, for political and public meetings. The walls have been cleaned, seats renovated and new carpeting put on the aisles, and changed to a new floor.

Walter F. Robertson, of Orlando Camp, who spent a week at the Belle Glade Hospital, as the result of a severe heart ailment, is now serving as a clerk in the local post office.

Attend DeMolay Council

The State Association of DeMolay Council of Florida held an organization and business session in Orlando Sunday with representatives present from some 25 chapters.

The meeting was attended by Messrs. W. B. Risk, William Evans, Al Kirkman and Joe Cherry, of Belle Glade.

up this question, for the present time as well. This business was also made for the continuation of ditching and drainage work now in progress until the next year, when it had been.

During the meeting, the order of the report of the new Utility Tax was brought up. Miss Creech questioned the wisdom and advisability of the voting of the ordinance. She asked for a vote of sentiment on this question of those in the auditorium, and there was near unanimous vote. Commissioner Scarborough took occasion to make a personal statement to that subject, and said that the merchants did not object to it, as it was an overburdening tax load. Miss Creech asked that she be given two weeks, to bring in a paper that would contain the names of a majority of the merchants of the city, favoring such a tax. The challenge was not accepted, but the likelihood is that such a document will be produced.

OBSERVATIONS

(Continued From Page 1)

is low grown and does not need mowing. It is a propagated grass and is set out in plots from which it extends tenaciously, till the entire lawn is filled up.

An unidentified colored woman came into a local place of business to make purchase of a clerk who was on the floor, and without making investigation himself, called her attention to it, and she promptly picked it up and left the store. Shortly after her departure a previous customer came into the store all exercised, inquiring if a wallet had been found, and he had a right to be as it contained considerable money and valuable papers. Well woman and wallet have not been located, but the bet is that she never went fishing that morning, as he had planned, after seeing the contents of the wallet.

Henry O. Earwood of the Constabulary and Equipment is not sold on the idea that burglars do not make more than the constable.

The period of public donations, for main charitable purposes, should be about over in Belle Glade. Our citizens have been most liberal donors and attendants at money raising events, for the Cancer, Christmas Seals, March of Dimes, Infantile Paralysis, Boy Scouts, I.D.B. and benefit football games. The total sum of such donations would represent a most respectable pile of money.

The candidate for political office is a very busy man these days button holing people and building up political fences. Looks as if there would be some rather animated politics ahead before the May primaries.

City Commissioner A. J. Richmond is of the opinion that the city charter should be

What a phone call to the editor of a paper, a man explained that his uncle had been a regular subscriber of the paper for half a century. He had always been a model of propriety, didn't smoke or drink, never uses strong language and has never been to a theatre or cinema. In fact, my uncle has absolutely no vices or excesses, and he's going to celebrate his 80th birthday tomorrow. How?" asked the editor.

Got your income-tax report into the Department of Revenue for 1947? The quicker you get them in, and it is found that you have paid excess taxes, the sooner you are getting back the refund check. Uncle Sam pays you if he gives anything, but asks for more as readily, if you have not paid in sufficient amounts. You

changed to provide ward divisions for election of city commissioners, and other elective officers, than the present method. He has suggested it to the Commission for a bit of thinking and consideration.

The Government is requesting that home gardens be put out again this season to help out the family provision of food. It is a reasonable request which should be given attention to it, and the prompt. Nothing goes so good as crisp, fresh home grown garden truck.

That was a stinking trick some culprit played on the old Judge, when they lifted the hood of his auto, and placed a fish on his engine. And there was small when the engine got warmed up. Worse than a garbage truck.

While Registrar DeWitt Utthogrove and local workers may not have been registered as many voters as had been hoped for, a good job was accomplished through the united efforts of the Chamber of Commerce and other civic clubs. There is one thing about this registration, and that is it is a live one, and not cluttered up by names of people who have died, left the vicinity, gone to the pen or insane asylum, or have not voted for many years.

Political strength in the county and the Glades precincts in particular, are now definitely known.

Sometime in the future the Glades will likely have its drainage and conservation of water, water. The Army Engineer's plan, now generally endorsed by citizens, and approved by Governor Caldwell, is well on its way and working well. Washington holds the story, and strong hopes are entertained that Congress will make appropriation for the carrying out of the all over project. The big lake delta did much to develop our rich agricultural area, and if we can have drainage in a similar effective manner, then most of our troubles will be over.

Belle Glade should feel very proud that it is the city in which the first chapter of the Rainbow Girls was instituted in Florida, which came through the instrumentality of Mr. and Mrs. Joe Cherry. Now there's a score of such chapters in the state. To visit chapters, attention is indeed a privilege, and the manner in which business and degrees are carried out by the girls shows high efficiency. Moore Haven is now in the process of making arrangements for the instituting a chapter in that city. The Belle Glade officer staff has been invited to participate in the constitutional ceremonies.

Babe Ruth the king of swat, and one of the immortals of baseball, is having an inning on the Saturday Evening Post, in a series of articles setting forth his life's history as a leading athlete and baseball champion. It is not only the kids who will avidly read this series of articles, but millions of old time fans as well.

Belle Glade people, especially the women, are resting more comfortably now, to know that a dangerous negro criminal has been disposed of and that he did not, even tho' it did take a killing of the culprit. Taking all conditions in consideration Sheriff John Kirk, is deemed by a jury and most citizens, with having removed a dangerous man, who might have gone on committing his felonous acts, even more serious than those which he did commit.

In a phone call to the editor of a paper, a man explained that his uncle had been a regular subscriber of the paper for half a century. He had always been a model of propriety, didn't smoke or drink, never uses strong language and has never been to a theatre or cinema. In fact, my uncle has absolutely no vices or excesses, and he's going to celebrate his 80th birthday tomorrow. How?" asked the editor.

Mayor N. D. Lloyd, a former conservation officer for years, states that the dying fish in canals and drainage ditches is nothing new to the lake region, where it occurs annually. He cites most of this fish death due to tannic acids or lime coming in from the pine lands rock pits or road building projects. In his day he cites the attention given to the fish damming up outlets of streams into the big lake. He looks upon this annual occurrence as a beneficial one as it keeps the lake fish crop down to a normal production. The fish display by the state at Tampa was one of the real attractions of the fair, and was visited by thousands of curious spectators.

Notwithstanding February is the shortest month of the year, even though 1948 is so called leap year, calendars show that there are five Sundays in this month. This is the first time in 28 years that this condition has existed, and the second time in the present century. The last time that Leapyear came on the 29th, was in 1920. It will be a long time before five Sundays fall on February dates.

February is the month that we celebrate the birthdays of George Washington, Abraham Lincoln and Thomas Edison all of whom stand high in the history of our united commonwealth. Washington was our first president, because he was the Commander of the Colonial army, before our Government was set up as at present. Lincoln was the President during the days of the war between the states, and met death by an assassin's bullet. Both have honored niches in the history of the world, especially the United States of America.

If there are ones curious enough to want to know how many people are coming into the Glades this season, just drop into the Bell's or Billy's restaurants, take a gander at guests seated at the tables or counters. I did so in Bell's, one day this week, and out of a possible 80 diners, I counted 60 persons who were complete strangers. Fine looking business people, and from appearance mostly from the north states. I talked to a number of them, and without exception, they expressed themselves pleased at the apparent prosperity of the region.

Lex Green Gets Into Race For Railway Commissioner

Hon. Lex Green, who for 20 years served in Congress from Florida in the House of Representatives, after several years retirement from the state political field, this week, announced his candidacy for membership on the State Railway Commission, and will contest against M. D. Peterson and Richard Mark, of Miami. Mark was named to the Commission by Governor Caldwell upon the death of Commissioner "Duke" Douglas. W. M. Wainwright was also a candidate for the office, and death claimed him in Lakeland last Saturday.

St. Johns County Judge Rivers H. Buford, who has served on that high tribunal for many years, on Monday, presented his resignation to the Governor, effective on March 1st. He retired on account of his health and at his physician's recommendation. His present term did not expire until in 1951. His successor will be nominated and elected at the November election, meantime, the Governor will name some one to serve for the next ten months.

HENRY A. BRADDOCK

(Continued From Page 1)

the Sonles, Wagner, Depens and Winn families.

Later Mr. Braddock bought a large tract of land in the Chosen section, some of which remains in the ownership of his heirs. Mr. Braddock was a man who cannily could tell the trend of where business would develop, as proven by

his Miami and Belle Glade purchases. When his son, Roscoe, was a small boy, and before the FEC had come to Belle Glade, his father told him one day, "Roscoe, some of the days not too far away, you will see a railway and depot standing on some of this land."

Mr. Braddock and his neighbors built the first school in this neighborhood on Torrey Island, which was used until the 1928 flood. He experimented with pasture grasses, especially with Pura, Carib and Rhodes types and had the first pasture land. From the Rhodes grass he cut and made hay which he sold on the east coast markets. In 1918 from his own ranch, he loaded dressed beef down the canal to Ft. Lauderdale and Miami and when placed in the show windows at

traced much attention, as he equal to grain fed meat and active worker in the South Day Adventist Church, holding membership in the congregation on his Torrey Island ranch.

The first lake transport supply line from the lower east coast to the Glades, via the North New River Canal, was established by Mr. Braddock, he operating 14 boats "The Stock" for several years, until larger and faster transportation boat lines became developed. With his large family about coming to their new home, the boat was well named.

To satisfy his own curiosity and to demonstrate to the world, he put on a program, showing that a farmer could be self sustaining from the farm products that could be grown in the rich fertile Everglades lands. He grew his own cane for sugar and syrup; raised beef and pigs for the meat; augmented by fish and wild edible animals then most plentiful; as well as sweet and Irish potatoes, corn, cabbage, string beans, asparagus. He experimented just to see what could be grown in a commercial way. In the way of fruit he introduced peaches, berries, mangoes, papaws, persimmons, pineapples, and most anything else was good to eat.

In his early days of the island there were no roads, only water transportation, to get to neighbors homes, about his own farm and trips about the lake. He left the Glades in 1921 to care for business interests in Miami, but later returned to engage in business with his son, Roscoe, in farming and cattle raising.

"He was a fine man, a good citizen, and for years had been and active worker in the South Day Adventist Church, holding membership in the congregation on his Torrey Island ranch."

He and his good wife, who still survives, were the progenitors of a family of three daughters, five sons, 20 grandchildren and four great-grandchildren.

State Released Facts & Figures For Cattlemen

Cooperative extension work in agriculture and home economics issues this.

Returns from cattle—Each cow of breeding age should produce 250 pounds of beef per year or go to the butcher.

The annual calf crop must pay all carrying charges, expenses and taxes before any profits are received. A 30 per cent calf crop means that one calf must pay for the keep of 3.3 cows. While with an 80 per cent calf crop one calf pays for the keep of 1.25 cows. Calculations and experience show that the cost of production per calf goes up with a small calf crop.

Why keep 100 breeding cows and only 50 calves? The annual production of calves can be increased without increasing the number of cows in the herd. Call out the sterile and dry breeding animals, get a calf crop and a revenue from the pasture and range. In cases a calf crop higher than 60 per cent must be produced after any new profit can be obtained. Recent survey shows that the better herds of Florida were producing annual calf crop of around 70 to 80 per cent.

Bulls and Calf Crop—Good, strong, well fed bulls are essential in securing a crop of good calves. Nature sets the breeding season in the spring when lush grass is growing. Cattle men agree that calves dropped early in the spring have the advantage over late spring and summer calves escape severe winter infestation and have a full year's growth of grass, can be sold as fat calves in the summer or can be wintered on rough feeds. Controlled breeding season determines when calves will be dropped. Healthy, strong bulls turned with the herd May 15 to July 15 will produce calves from February 20 till April 22.

Heifers for Herd Replacement—Selecting and developing heifers and breeding them to bring their first calves at 27 to 34 months insures the calf crop, reduces the death loss and increases the pounds of beef produced.

Notre—Get animals ready for the Show. Second Annual Herd Show, Ocala February 29; First Annual Fat Stock Show, Ocala March 2-5; First Annual Spring Show of Angus, Ocala March 31, 1948.

Supreme Court Makes Important Decision Favoring Veterans

As a result of action of the Supreme Court of the United States in reversing judgment of Florida, Supreme Court rights of service personnel to collect property lost for taxes during their service have been extended. Copies of the opinion of Supreme Court of United States show that this tribunal followed completely opinion of Judge W. T. Harrison in a Ft. Myers case involving Soldiers' and Sailors' Civil Relief Act.

The unanimous opinion was written by Justice Douglas in a suit carried to the Washington court on writ of certiorari by W. B. Shelby Crichtlow, Dewey A. Dye and R. E. Willis, local attorneys. The decision will have nationwide effect in extending rights of service men to reduce property lost on tax debts or tax sales during their period of service and also influence action of title insurance companies with respect to their liabilities.

Douglas said Florida courts had held that the statutory rule on lands actually occupied and used, limits the class of property on which servicemen have protection. The Supreme Court of the United States, however, said that provision of the law only extends additional protection on that class of real estate and that under certain circumstances all property was protected.

Douglas said the court felt that it must read the Soldiers' and Sailors' Civil Relief Act and with an "eye friendly" to those who dropped their affairs to answer their country's call.

Ft. Myers Celebrates Edison's Natal Day By Light Pageant

Thomas Edison, the great American inventor, was born at Milan, Ohio, on February 11, 1847, and last week, the City

of Ft. Myers, one of his adoptive homes, celebrated the natal day with its annual Pageant of Light, which attracted large crowds from all over the state and nation.

The Belle Glade High school band was one of the school bands invited to participate in the big parade.

Edison is accredited with having presented over a thousand inventions for the betterment of mankind and civilization. His greatest contributions was the electric light, phonograph and moving pictures.

Edison was a great benefactor to Ft. Myers, where he has made donations of various types, and the bridge there is known as the Edison Memorial Bridge. Ft. Myers at one time turned down a gift of Edison for a village lighting system, on the ground that "lights would keep the cattle awake at night."

Comptroller Gay Visits Friends Here

Comptroller C. M. Gay, candidate for return to a four year term in that office, made a brief here this week to confer with friends and supporters of his campaign.

"I will be forced by official responsibilities to leave much of my campaign in the hands of my friends," Comptroller Gay said, "but I welcome this opportunity to make a short visit in this city. My only regret is that I will not have as much pleasure, because lack of time, of meeting all my friends."

The Comptroller is basing his campaign for return for a four year term on the achievements of his office along lines of economy and efficiency, and pointed to the savings of many thousands of dollars of taxpayers' money which have been effected through installation of modern and efficient methods of business and accounting since he took office.

What It Costs Florida Anglers For Fish Supply

Resident licensed fresh water fishermen provided a \$56,000, 600 business in Florida during 1947, Director Ben C. Morgan, State Game and Fresh Water Fish Commission, revealed today.

The figures, Morgan said, are

based on a one per cent survey of licensed fishermen that indicated a total annual catch of 28,232,000 pounds of fresh water fish.

The Director said that studies made by the Fish and Wildlife Service disclosed that the average fisherman spends two dollars for every pound of fresh water fish he catches. "On this

basis," he pointed out, "Florida fishermen, turned loose more than \$56,000,000 paying for tackle, boat, rental lodging, meals, bait, guides and travel."

Of the 28,232,000 pounds of fish caught by the anglers, 13,241,000 pounds were bass; 6,317,000 pounds bream; and 1,490,000 crappie. Catfish and 20.5 pounds of other species.

remainder. The Commission's survey disclosed that the average Florida angler went fishing 23.8 times and put 179.3 pounds of fish on his stringer during the year. His annual catch consisted of 79.8 pounds of bass; 41.4 pounds of bream; 28.7 pounds of catfish; 8.9 pounds of crappie; and 20.5 pounds of other species.
